

Muhammad Ahmed Shehzad

Software Engineer

Profile

I'm a software engineer with over 5 years of experience building web applications. I enjoy working on both frontend and backend development, and I'm passionate about writing clean, maintainable code. I've worked with various technologies and love learning new ones to solve interesting problems.

Employment History

Software Engineer — Verbund Pflegehilfe

Jul 2023 – Present · Mainz

- Develop and maintain a platform that connects people needing care with local healthcare providers
- Built a CRM system used daily by our consultant team to manage client relationships and track progress
- Created an automated calling system using Twilio API that helps our team reach clients more efficiently

Software Engineer — Sustayn GmbH

Feb 2022 – Jul 2023 · Essen

- Built an employee engagement platform focused on learning and development for corporate clients
- Added gamification features like challenges and knowledge-sharing to make learning more engaging
- Worked on reward systems that encouraged employees to participate more actively in company programs

Software Engineer — FPT Software

Sep 2021 – Nov 2021 · Essen

- Worked on a Lidar Management System for RWE, handling large amounts of wind energy sensor data
- Built several REST APIs using .NET and C# for data processing and management
- Developed React frontend applications with focus on performance and user experience
- Optimized system performance by improving API design and database queries

Software Engineer — SODEFA GmbH Co. & KG

Aug 2019 – Sep 2021 · Hürth

- Created a heating oil price calculator that customers use to get accurate pricing quotes
- Built an online ordering system that streamlined the customer purchase process
- Developed logistics tools to help the company manage their delivery fleet and reduce costs

Software Engineer — Six Logics

Nov 2016 – Apr 2018 · Lahore

- Worked on live sports score features for 365Scores, a popular sports app
- Built personalized content feeds showing users their favorite teams and players
- Created tools for content publishers to integrate our sports data into their platforms

Education

University of South Asia

Bachelor of Science in Computer Science

Sep 2012 – Sep 2017 · Lahore
